

ADLER AD-9R - AR STYLE 9x19mm PCC - AD9R-061-BLK

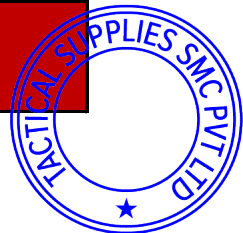

TECHNICAL SPECIFICATIONS

The Adler AD9R is one of the leading models in the 9mm PCC class, specifically developed for use by security forces. Featuring a rear interface compatible with AR-style stocks and an integrated Picatinny rail system, the AD9R offers a high level of modularity. The top-mounted Picatinny rail allows seamless integration of a wide range of OEM optics. Fully compatible with Glock-type magazines, the AD9R stands out with its 6.1" barrel length, lightweight construction, and compact design. With these features, the AD9R represents a next-generation platform capable of replacing traditional sidearms, offering enhanced control, accuracy, and operational flexibility for professional users.
