

TrapMaster Pro

TrapMaster Pro is a lightweight, battery-powered clay-target thrower designed for realistic shotgun and C-UAS operator training. Built for portability and rugged use, it enables realistic training scenarios in any condition or terrain. Compatible with biodegradable targets.

- Singles and pairs
- 10 different speeds
 - 55-100 km/h (150 m)
 - Each time you increase the setting by 1, it increases the speed by 5 km/h.
- Only one hand required to launch
- Up to 600 targets per charge (300 launches)
- No cooldown period between launches
- Must be used with the Bio Clays Pro!

What's included:
