

LEP(Laser Excited Phosphor) Searchlight and Laser Dazzler

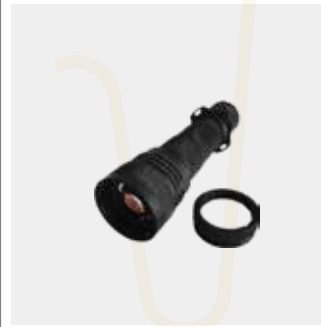

RLG64ZG

As a non-lethal weapon designed to incapacitate targeted personnel, this green laser dazzler is not only light weight and compact size, and also its light source allow maximum output power of 500mW. It's a game changing product.

Max Output: 500mW
Range: 980 m(day)/6,400m(night)
Beam Divergence: 0.1°(Spot)-29°
Light Source Power: 10w

RLW11Z

Adjustable Focus LEP Flashlight: 1,100m range, illumination/dazzle modes, compact. Must-have portable safety gear for SWAT.

Max Output: 302,500cd
Range: 1,100m
Beam Divergence: 4°-29°
Light Source Power: 10w

RLW55Z

An ideal hand-held or vehicle mounted searchlight for long range searching, rescue, patrol, surveillance. It is also a reliable directional light for heavy machine guns, grenade machineguns, anti-equipment rifles, long range camera, long range acoustic device.

Max Output: 7.56Mcd
Range: 5,500m
Beam Divergence: 1°-40°
Light Source Power: 30w

RLW90Z

A vehicle-mounted LEP searchlight, ideal for long-range search, rescue, patrol, and surveillance. It serves as a reliable directional pointer for UGVs, USVs, armored vehicles, and tanks, and can integrate with long-range cameras and acoustic devices.

Max Output: 20Mcd
Brightness: 12,000lm
Range: 9,000m
Beam Divergence: 1°-30°

||| Tactical Flashlight and High-Intensity Flood Light

RLE08Z

Tactical flashlight built for law enforcement: ideal for emergency response and tactical missions. It mounts easily on LRADs, rifles, and machine guns, and remains reliable in rain, mud, underwater, or low-light conditions. Delivers steady mid-range illumination when you need it most.

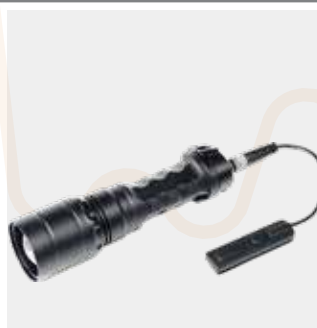

Max Output: 16,000cd

Range: 800m

Beam Divergence: 2.4°-24°

Light Source Power: 10w

RLE11Z

Range up to 1,100 m for searching, plus a broader beam angle perfect for 100-200m close-to-mid-distance illumination. It is handheld or mountable on LRADs, rifles, and machine guns, and remains reliable in extreme weather, underwater, and low-visibility conditions.

Max Output: 302,500cd

Range: 1,100m

Beam Divergence: 3°-28°

Light Source Power: 10w

RLE24Z

This handheld flashlight is deal for military and law enforcement applications, and is also a must-have for civilian security professionals and hardcore outdoor enthusiasts. It is rugged and reliable performance and is IP68 up to 5m of submersion.

Max Output: 1,210,000cd

Range: 2,200m

Beam Divergence: 1.4°-30°

Light Source Power: 10w

RLE27D6

The handheld bright scene light is ideal for mining, firefighting, military operations, law enforcement riot control, border security, search and rescue. It proves to be a great asset for any field operations and professional outdoor activities.

Max Output: 16,000lm

Range: 2,700m

Beam Divergence: 6°

Light Source Power: 250w

RLE25D12

Vehicle-mounted ultra-bright scene light: Exceptional brightness and high intensity—powerful enough to illuminate a Boeing 737 from 100 meters, ideal for counter-terrorism scenarios. Perfect for mining, firefighting, military, law enforcement, riot control, border security, search/rescue.

Max Output: 50,000lm

Range: 2,500m

Beam Divergence: 12°

Light Source Power: 750w

RLE56D8

Vehicle-mounted ultra-bright tactical light (law enforcement/military) Continuously focusable beam: adjustable from 8° to 16° for wide-area coverage. It is safety-compliant and rugged, suitable for anti-riot operations, border security, mining, and firefighting.

Max Output: 12.8Mcd

Brightness: 120,000lm

Range: 5,600m

Beam Divergence: 8°-16°
