Wizard Recoilless Disrupter on Tripod

DESCRIPTION

Introducing the Wizard Disrupter, the ultimate recoilless solution for decapping pipe bombs with a watershot. Unlike traditional disrupters that use solid projectiles, the Wizard's use of water prevents sparking, reducing the risk of high-ordering. With a lightweight and true recoilless design, the Wizard has long-range capabilities with watershots and solid projectiles used for de-arming. Having four times the power of a 29mm disrupter, the Wizard can be used for unconventional scenarios; ie: the rear chamber has the ability to disintegrate packages and breach doors. The Wizard has a maximum recommended standoff of 5 meters(15 ft.) for watershots, depending on the target. Experience the power and precision of the Wizard Recoilless Disrupter.
